REPORT OF THE COMPTROLLER OF THE CURRENCY.

The Comptroller of the Currency, in his annual report to the Secretary of the Treasury, shows that there are 1,629 national banks in active operation, with a circulation within a fraction up to the legal limit of three hundred millions. Twelve national banks have been organized since the last annual report, five of which are new associations. Fourteen national banks have failed to redeem their circulating notes and were put into the hands of receivers. The loans and discounts made by the national banking associations amount to $3,351,004,665. The Comptroller recommends several reforms in the national banks. One is an amendment to the act creating these associations, authorizing the Comptroller to call upon the banks for five detailed statements or reports during each year, fixing upon some day that is past for the date of the report. He argues that the day for the specified quarterly reports being known in advance, the banks prepare for them by a process of operations which do not represent their actual working condition. And here he takes occasion to condemn the banks for lending themselves to combinations and speculations for affecting the money market, and particularly the practice of the New York banks in issuing certified checks to Wall street operators. He remarks:—"Taking the call loans and the certified checks together, the somewhat startling fact is developed that the New York national banks furnish (daily) seventy million dollars of capital and one hundred and twelve million dollars of credit for speculation." He urges the establishment of a central redeeming agency, by means of which the national bank notes shall be redeemed and made convertible into the lawful money of the country, whether it be paper or gold, at the principal centre of trade. To prevent panics and speculators locking up the currency and to supply a sufficient and equable circulation medium, he recommends that the Treasury of the United States shall hold in reserve a certain amount of legal tender notes in excess of the amount in regular circulation, as a source of relief, and to be let out in times of stringency, something in the same way that the British Chancellor of the Exchequer authorizes at times the Bank of England to issue more notes than is strictly prescribed by its charter. Of course the Comptroller urges a return to specie payments, but does not tell us when this can be brought about, and prudently intimates that we must be careful what steps are taken to that end. In fact he sensibly leaves that to the people. He favors free banking as soon as the restrictions imposed upon the issue of circulating notes by national banks may be safely removed. Mr. Huribart's report, on the whole, is a respectable one, though he errs in some of his financial ideas. He concludes in a sensible manner by saying that with regard to the currency and banking the business public of the United States is the only competent judge.

REPORT OF THE COMMISSIONER OF INTERNAL REVENUE.

All the important parts of this document will be found in another column. It will be seen that in the fiscal year ending June 30, 1868, the sum of one hundred and ninety-one million dollars was collected from internal revenue, the expense of collecting which was five per cent. The heavy items in this account are the taxes paid on the indulgence of popular appetite. The amount received, for instance, from the tax on chewing and smoking tobacco was, in round numbers, fifteen million dollars. All the railroads paid together less than seven millions, the insurance companies less than two millions, and the telegraph and express companies not a million between them, so that chewing and smoking tobacco—our small vices, as they are called—are really "bigger things" in the Commissioner's report than all the railroads, telegraphs or express and insurance companies in the United States taken together. The number of cigars taxed was six hundred millions. The tax on distilled spirits and brandy netted fourteen millions, and other liquors run the total of the figure on stimulants to fully twenty millions. It is estimated by the Commissioner that the income from internal revenue for the next fiscal year will reach one hundred and forty-five million dollars. Some important recommendations are made in thy report—among them one urging the erection of this portion of the Treasury Department into a department by itself.

REPORT OF THE POSTMASTER GENERAL.

The annual report of Postmaster General Randall, is interesting, although the leading facts have been anticipated. The ordinary revenue for the year ending June 30 slightly exceeded sixteen and a quarter millions of dollars, while the expenditures amounted to nearly twenty two and three-quarters millions, thus leaving a deficiency of over six millions. Congressional appropriations, however, reduce these figures to a deficiency of not quite three-quarters of a million of dollars, if it even does not do away with the admitted fact that the expenses of the Post Office Department are about one dollar and forty cents to every dollar received. Mr. Randall does not believe that the postal service can or should be made self-sustaining for fifty years to come. He estimates that ten years hence the expenses will be forty millions and the receipts only thirty millions, but he expresses the faith that when the country is fully developed there will be no deficiencies for Congress to supply. On the past year's business of the department, the recommendations and suggestions, the report is quite full and interesting.

THE NEGRO RIOT IN SAVANNAH.—The negroes of Georgia appear to be in a somewhat rampant condition. They have been making such frequent raids of late upon the whites in the vicinity of Savannah that the Mayor of that city found it necessary to commission a special police force for patrol duty on the outskirts of the city. A party of these police, principally composed of German farmers, who were protecting their property, under orders of the Mayor, on Saturday night were fired upon by a band of about forty negroes lying in ambush, and the chief of the police was killed and three of his posse wounded. Is it not time that the white citizens of the South were protected from the brutality of their negro masters? Does not the present system of reconstruction require to be remodelled?—*N. Y. Herald.*

THE PEOPLE OF NORTH CAROLINA PAY FOR THEIR LEARNING.

We showed a few days ago the enormous tax to which the good people of North Carolina are subjected under the new system of government by which they are so bitterly cursed; and now as an addition to that exhibit we have the authority of the Raleigh *Sentinel* for the statement that the report of the public Treasurer shows an expenditure of $35,000 in the space of one year for "*contingencies*." This is just *half* what it cost to conduct the whole government of North Carolina a few years ago, and it is but natural that our Raleigh brother should call out in a voice with no uncertain sound for the *items* of this gigantic bill. What did the loyal Governor and his loyal satellites buy with this money? That's the question. Did they purchase votes, or, following the Washington fashion, did they invest in pen knives and gloves, soap (a much needed article among them) and tooth brushes; or, were they still more practical in using the very handsome sum we have stated in the secret service fund? It is understood that now this is done the right hand breeches pocket of a loil man does not know what becomes of the money in his left hand fob.

With this enormous expenditure before them the people of North Carolina will at last begin to understand the crime against themselves which they have committed by allowing such men as those now at the head of affairs to seize upon and hold the reins of government. They are learning by experience, and like all people who go to this school, they are paying for their tuition.—*Norfolk Virginian.*

LIFE INSURANCE.

The Most Vigorous and the Most Liberal Insurance Company in the Country.

BROOKLYN LIFE INSURANCE COMPANY,

141 Broadway, N. Y.

ASSETS OVER

$1,000,000!

CHRISTIAN W. BOUCK.....*President.*
ABRAM D FOLHEMUS.....*Vice President.*
WILLIAM M. COLE.....*Secretary.*
D. P. FACKLER.....*Consulting Actuary.*
DANIEL AYRES, M. D., LL.D., *Med. Examiner.*

POLICIES ISSUED AS GOOD AS UNITED STATES BONDS.

POLICIES VALUABLE IN LIFE AS AT DEATH!

The BROOKLYN LIFE is the only Company in the country which guaranties a definite surrender-value to every policy on which two or more annual premiums have been paid; this amount, in dollars and cents, is endorsed on every policy issued. Should any policy-holder become unable to pay his premiums, he can thus know the cash worth of the policy at any time after two annual premiums have been paid.

This certainly is the greatest inducement and most tangible advantage ever accorded to parties insuring their lives.

Among the advantages offered by the BROOKLYN, which thoroughly evince the determination of the officers to make it the MOST LIBERAL Life Insurance Company in the United States are:

1st. TOTAL REMOVAL OF ALL RESTRICTIONS ON TRAVEL AND RESIDENCE. The Assured may travel or reside anywhere they choose, the world over, without extra premium or special permit.

2d. A Loan of one-third of the Premium to the Policy-Holder Annually.

3d. All Policies are non-forfeitable after two full annual premiums have been paid.

4th. Rates as low as are consistent with financial soundness, and less than those of almost all Companies which accommodate their assured with loans.

5th. Dividends annually (after second year) in cash. Dividends are divided on the CONTRIBUTION PLAN—the only equitable manner of dividing the earnings of a Life Insurance Company. The Contribution Plan was first conceived by Mr. D. P. Fackler, now Actuary of this Company and has been adopted by most of the best managed Life Companies in this country.

The BROOKLYN LIFE has paid and now pays to its Policy-holders LARGER DIVIDENDS than ever before paid by a Life Insurance Company!

6th. Promptitude in paying losses.

7th. No charge for policy or stamp.

The success which the "BROOKLYN" has achieved, fully exemplified in its rapid and healthful growth, is a convincing proof of the confidence reposed by the public in its soundness, integrity and liberality.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

FRIDAY, DECEMBER 11, 1868.

HOW IT WAS!

As a general thing, we can designate the articles in the *Standard*, written by the active but silent Editor, Governor Holden, by their want of truth, or assertion of falsehood.

The Governor says, in a late issue of the *Standard*, that "Jo. Turner was excluded from his seat in the Senate by the Howard amendment," &c. Not so He was excluded by the political profligacy and corruption, then and now existing in the Executive, Legislative and Judicial branches of the government. We can prove that the Governor and Lieutenant Governor, and Judges that we can name, had *conspired* us out of our seat, before the Legislature convened.

The Howard amendment had not been adopted, when we offered Gen. Canby's certificate of election and claimed our seat in the Senate. The Constitution of the State did not exclude us, nor did the Constitution of the United States. The Lieutenant Governor, backed by Federal bayonets, excluded us. We offered to take the same oath which the Lieutenant Governor took, and which was administered to other Senators. This was refused.

Gen. Canby, on the day before the Legislature convened, by telegraph, removed Governor Worth and appointed Holden Provisional Governor, and, at the same time, he appointed "Tod R. Caldwell Lieutenant Provisional Governor, to fill an original vacancy."

This was an "original" crime against civil liberty and the rights of the people of North Carolina. Our Constitution, at that time, recognized no such officer as Lieutenant Governor.

The Senate was organizing under the new Constitution, as we have said. That did not exclude us. If that did not, then nothing but brute force could or did. We had the same right to forbid or prevent the Lieut. Governor from taking his seat, that he had to prevent us. If we had objected to his taking his seat, he would have shown his certificate of election, signed by Gen. Canby; that and nothing else would have entitled him to his seat. That and nothing else entitled us to ours. We took occasion to say, on the floor of the Senate, that we were organizing under brute force, instead of the Constitution.

When Senator Robbins moved that all Senators, having certificates of election, be allowed to qualify, the rebel Senator from Wake, Willie D. Jones, moved to adjourn, and this before one o'clock, and before a clerk, a doorkeeper, or single officer of the Senate had been elected!

After the nomination of a negro Assistant Doorkeeper, the President of the Senate forbade us from nominating Mr. Couch, one of our white constituents, for the same office, but said we could get some other Senator to nominate him. Senator Robbins, at our request, nominated Mr. Couch.

Here a carpet-bag Senator stunned and staggered the Lieutenant Governor with this inquiry: "How can Mr. Robbins make a motion, at the request of Mr. Turner, when Mr. Turner cannot make the motion himself?"; and the Lieutenant Governor looked as foolish as Willie D. Jones did when Burnside captured him at Roanoke Island. His confusion lasted until that same rebel, Willie D. Jones, came to his relief, by nominating Couch, *my* white constituent, for Assistant Doorkeeper. After putting him forward by nomination, he voted *against* him.

The Lieutenant Governor swore often to support the Constitution of the United States. That oath he violated by making war speeches, urging his neighbors' children to enlist, as soldiers, in what he now calls a damnable war.

He then, we suppose, swore to support the Confederate cause and Constitution.—How he kept that oath we shall not say. It may be that he went in, like John Pool, to "embarrass the Confederacy."

When the Legislature convened, under the new Constitution, soon after breakfast he swore to support the new Constitution of North Carolina. He violated that Constitution before dinner, in the manner we have mentioned.

THE CODE COMMISSION.

We stated the fact, a day or two since, that two of the Code Commission, Judge Rodman and Mr. V. C. Barringer, were here, at work, cutting up printed copies of the New York Code, adapting it, with some occasional slight modifications, to North Carolina, and receiving therefor the snug little sum of $200 each per month. "Judge" Tourgee and "Judge" Rodman are drawing their judicial salaries at the same time that they are getting the $200 per month.—These same Code Commissioners draw their pay, even when they are at home, doing nothing, all the same as if they were engaged on their duties.

The worst of it is, that while this large amount of money is being paid to the Commission, the Legislature spends ten times as much more in *undoing what the Commission has done!* Even a cursory glance at the Legislative proceedings, each day, will exhibit innumerable motions to amend or repeal the provisions of the Code of Procedure. And thus it is that the taxed and oppressed people of North Carolina are ground between the upper and nether millstone!

Legislature of North Carolina.

SENATE.

THURSDAY, Dec. 10, 1868.

The Senate was called to order at 10 o'clock.

REPORT OF COMMITTEE.

Mr. Rich, from the Committee on Internal Improvements, to whom was referred a bill to amend the Charter of the Atlantic, Tennessee and Ohio Rail Road Company, reported favorably. The bill passed its second reading, under a suspension of the rules.

BILLS

By Mr. Welker: A bill to amend section 11 of the Code of Civil Procedure, (relating to the terms of the several Superior Courts,) which was referred to a special Committee appointed some time since on that subject.

By Mr. Bellamy; A bill authorizing the Commissioners of the Town of Tarboro to grant the right of way through said town to the Williamston & Tarboro Rail Road Company. Referred to the Committee on Corporations.

On motion of Mr. Barrow, the rules were suspended, and the bill providing for the Registration of Voters in special cases was taken up and passed its several readings. (This bill provides that all persons, who have registered heretofore, are entitled to vote, and enables those, who failed to register, to do so.)

On motion of Mr. Respass, the bill providing for the formation of a new County, to be known as the County of Dare, composed of portions of Currituck, Hyde and Tyrell Counties, was taken up, and, on his motion, was so amended as to include Ocracoke in the line along the beach, and passed its several readings.

On motion of Mr. Moore, of Yancy, the rules were suspended and the bill to incorporate the town of Marion, in the county of McDowell, was taken up and passed its several readings. (Another round town.)

On motion of Mr. Love, the rules were suspended, and the resolution in favor of W. W. Medford, late Clerk of the County Court of Haywood, was taken up and passed its several readings.

On motion of Mr. Cook, the rules were suspended, and the bill in favor of P. T. Massey and E. G. Hill, of the County of Johnston, was taken up and passed its several readings.

On motion of Mr. Barrow, the rules were suspended, and a bill in favor of Jas. Rumley, of the County of Carteret, was taken up, and passed its several readings.

UNFINISHED BUSINESS.

Bill to be entitled "an act amendatory of an act to incorporate the Western North Carolina Railroad Company, and acts amendatory thereof":

The question being on the amendment offered by Mr. Robbins to the 9th Section, to wit:

"*Provided*, That no other branch shall be built until the main Road to Duck Town and the branch to Paint Rock shall be completed;" which was adopted.

On motion of Mr. Moore, of Carteret, the vote by which the fifth section was stricken out, and the proviso offered by Mr. Barrow rejected, on yesterday, was reconsidered.

The question recurring on Mr. Barrow's amendment, to wit: "Provided, that the State shall be entitled to a *pro rata* vote upon her stock, according to the representation of individual stock in the meeting,"

Mr. Osborne said that the effect of this amendment would be to increase the powers of the State. He was perfectly willing that the State should retain so much control as was provided for in the original Charter, but this proposition would give her the entire control of the Road, which is in contravention of the provisions of the original Charter.

Mr. Barrow said he had no desire to abridge the rights of individual stockholders, but he thought his amendment would settle the disputes which he understood were chronic between said stockholders and those representing the interest of the State.

Mr. Osborne offered an amendment to the amendment, to wit: "*Provided*, That the State shall be represented in all the stockholders' meeting, as is now provided for in the original Charter;"—which was rejected, and Mr. Barrow's amendment was then adopted.

The question recurring on the passage of the bill, it passed by the following vote: Ayes 33, Nays 8.

CALENDAR.

Bill No. 2, amendatory of an act to incorporate the Western North Carolina Railroad Company, and acts amendatory thereof;

Mr. Sweet said that it appeared at a glance that this bill increased the indebtedness of the State to the extent of about $3,000,000. It is useless, Mr. President, to enter into an argument against the increase of the indebtedness. The Western division of this road, to which this bill relates, has a capital stock of $6,000,000, and it is yet in its swaddling clothes; not as yet has a single spade been stuck in the ground. Why ask for an additional appropriation? This stock may be found adequate to complete it. The burthens of taxation were already onerous upon the people, and he could not vote to add to their grievous burthens; and, even if we were as rich as Croesus, this additional appropriation should not be granted, until it is ascertained what amount is actually required.

Mr. Lassiter said he would state that he had understood, that it was necessary to procure the appropriation, in order to put the entire line under contract, and, with that view, he thought the bill should pass.

Mr. Welker said if he understood the matter correctly, he was opposed to that clause which authorizes the Stockholders to borrow $2,000,000, and giving those who loan the money a mortgage on the entire road. It appeared to him as bad policy and placed the State in such a position that she might lose her entire interest in the road.

Mr. Osborne said he intended to vote for the bill, notwithstanding the objections offered by the Senators from Craven and Guilford. This work is ahead of all the Rail Road schemes in the State, and there should be enough money appropriated at once to complete it. To appropriate only a sufficient amount to complete one section, at a time, the section will be worn out before another is completed. Besides, the sooner the road is completed, the sooner the great resources of the rich mountain regions will come down it,—a section of the State that has been denied, for years, the privilege of intercourse with the outer world,—a section that can sustain double the population of the entire State. He thought the appropriation would be well spent, and, instead of increasing the debt, it would be a source of revenue. (His description of the rich country, through which this road must pass, was graphic and eloquent, and the Reporter regrets his inability to do Mr. Osborne justice by giving his remarks in full.)

Mr. Robbins said that he felt, to-day, the responsibility of being a Senator. He had tried to keep silent on this question, but his conscience would not let him. He desired to see this road built; he had kind friends, who were interested in it, and thought the road ought to be built at once. I agree with them. It would be a good thing to have this road, which runs from my town into that rich mountain country which the Senator from Mecklenburg so eloquently described, *but can we do it?* It will not do for us to stay here and build air castles, when our poor people are to pay the piper, *Can they do it?* If this tax of 8 per cent is not sufficient to pay the interest, then it is unconstitutional, and, if it is sufficient, it will raise $400,000, which is greater than the annual tax for the entire State, heretofore. Are we ready to increase this tax? It is more than our people can bear, and I do not desire to see the people crushed and beggared, in order to build this Road, no matter how much I desire to see it done.

Again, $2,000 000 are to be borrowed from certain parties, and they have a mortgage on the entire road. There is more in that suggestion from the Senator from Guilford, than Senators may see at a glance. We ought not to risk it. I never heard of a road before, that required so much money to begin—$7,000,000, and the ground not broken; and this fund is in the hands of whom? We do not know. There is no provision in the Charter requiring the private stockholders, to pay in a cent,—until the State has paid in all it has subscribed. Men take the contracts; where is the security that they will not put it in their pockets, and go to Europe? Where is the security that, after we have made all these appropriations, the road will be ours?—About six private capitalists have subscribed stock and have not paid in a cent, and are continually asking us for money. I warn you Senators, in the name of the people of North Carolina, to be careful how you exercise such powers. I want the road as much as any one can, but I cannot vote for this bill.

Mr. Lassiter expressed his gratification at the eloquent remarks of the Senator from Mecklenburg, in support of this bill. He had taken the right view. So far as the question of taxation was concerned, it appeared that Senators, who were opposing this measure, had ignored the fact entirely, that, in proportion that a country is built up, the better able it becomes to pay what it owes. I have never known it to be the case, in my life, that the contractors of any Road have pocketed the appropriations and fled to another country. The only spring board that we are to rise from must be in the Internal Improvements of the State.

On motion of Mr. Cook, the previous question was called, and the bill passed its third reading, as follows;

AYES.—Messrs. Beasley, Beaman, Bellamy, Burns, Blythe, Cook, Davis, Eaves, Etheridge, Eppes, colored, Galloway, colored, Hayes, Harrington, Hyman, colored, Jones, of Wake, Lassiter, Lindsay, Love, Martindale, Moore, of Yancy, Osborne, Rich, Richardson, Respass, Scott, Smith, Stephens, and Wynne—28.

NAYS Messrs. Barrow, Barnes, Brogden, Graham, Long, Melchor, Moore of Carteret, Purdie, Robbins, Shoffner, Sweet and Welker,—12.

Mr. Moore, of Carteret, moved to reconsider the vote.

Mr. Etheridge moved to lay the motion on the table; which prevailed.

The Senate branch of Committee on Briefs came forward and were sworn in viz: Messrs. Sweet, Robbins and Forkner.

Mr. Shoffner moved to postpone the consideration of the eligibility of Mr. Oates, Senator elect from the 16th District, until Jan. 15th.

Pending the consideration of the matter, On motion of Mr. Bellamy, the Senate adjourned until to-morrow at 11 o'clock.

HOUSE OF REPRESENTATIVES.

THURSDAY, Dec. 10, 1868.

The House was called to order at 11 o'clock.

Prayer by the Rev. Mr. Shaver, of the House.

Leaves of absence were granted to Messrs White, Long, of Chatham, Stanton, Rea, and Smith, of Martin.

Mr. Pou announced that Messrs Hinnant and Ferebee were confined to their rooms by sickness.

A message was received from the Senate, informing the House of the passage of the following bills and resolutions, to wit:

A bill to amend the act in relation to punishments;

A bill for the relief of Jno. T. White, former Sheriff of Gaston County;

Resolution in favor of James Consel, Sheriff of Macon County;

Resolution in regard to a repeal of the tobacco tax.

The usual disposition was made in the case of the above bills and resolutions.

REPORTS OF COMMITTEES.

Mr. Estes, from the Committee on Finance, Mr. Seymour, from the Judiciary Committee, and Mr. French, from the Committee on Counties and Townships, reported variously upon a number of bills, which will be noticed when they come up regularly from the Calendar.

On motion of Mr. French, the number of the Committee on Immigration was raised from 5 to 7.

BILLS AND RESOLUTIONS.

By Mr. Sinclair: A resolution directing the Secretary of State to report forthwith to this House the exact number of the volumes of the Code of Civil Procedure, the cost of printing, how many have been sold, with name of purchasers, &c. Lies over.

By Mr. Green: A resolution in favor of M. B. Howell. Referred.

By Mr. Malone: The following resolutions, which lie over:

Whereas it is known to this General Assembly that our sister State of Tennessee has in process of construction several important lines of Railroads, leading into Western North Carolina, which are intended to connect with such roads in this State as will best subserve the interests of the two States: *and whereas*, it is the opinion of this General Assembly, that the appropriate connections and final completion of these several railroad enterprises will contribute largely to the rapid growth, development, and prosperity of both States; and believing, also, that a comparison of opinions, and a concert of action, between the two States, is necessary to ensure the final success of these excellent and stupendous projects of improvement;

Therefore, Resolved, (the Senate concurring) that this General Assembly suggests to and cordially invites the Legislature of Tennessee, now in session, to send to the City of Raleigh such delegation or Committee as it may think proper, to confer with a like Committee of this General Assembly, in reference to these various contemplated railroad enterprises.

Resolved, That a Committee be appointed, consisting of five on the part of the House, and two on the part of the Senate, to confer with the Tennessee delegation and report to this General Assembly.

Resolved, That a copy of these proceedings be sent to the Speakers of both Houses of the Legislature of Tennessee for their action.

On motion of Mr. Snipes, House bill No. 30, to incorporate the Land and Lumber Co., of North Carolina, was taken up, and, after some slight amendment, passed its third reading.

By Mr. High: A bill to incorporate Lebanon Lodge, A. Y. M., in Columbus Co. Referred.

By Mr. Humphries: A bill to incorporate Atlantic Lodge, A. Y. M., in Currituck. Referred.

By Mr. Stilley: A bill to provide for the registration of voters. Referred.

Mr. Argo gave notice that he would introduce a bill to renew the charter of the Town of Durham in Orange County.

By Mr. Matheson: A bill to incorporate Lodge No. 238, A. Y. M., at Taylorsville. Referred.

On motion of Thos. A. Sykes, colored, the rules were suspended, and House bill No. 107, in favor of J. L. Moore, Sheriff of Pasquotank, was taken up. The Committee to whom this bill was referred had reported a substitute for it. After some little discussion, the substitute passed its several readings.

Mr. Whitley, from the Committee on Corporations, reported favorably upon several bill incorporating Lodges of A. Y. M. On motion, the rules were suspended, and the bills passed their several readings.

On motion of Mr. Sinclair, the rules were suspended, and his resolution, directing the Secretary of State to report in reference to the Code of Civil Procedure, was adopted.

CALENDAR.

House bill No. 103, introduced by Mr. Malone, (reported favorably upon by Committee) to amend the charter of the Caldwell and Watauga Turnpike Road: Mr. Banner objected to the bill, and, after some debate, it was postponed until Monday next, 10 o'clock

House bill No. 14, introduced by Mr. Ellis, to amend section 473, chapter 10, Code of Civil Procedure, in reference to Guardians and Wards was taken up and passed its second reading.

The bill to establish a rate of interest in the State was next reached, when Mr. Estes moved to postpone and make the special order for Wednesday next.

Mr. Seymour said that this bill and another of a similar character had been before the Judiciary Committee. The Committee had reported adversely upon this one and intended to recommend the other.—But if the gentleman (Mr. Estes) would amend his motion so as to include both, he would have no objection.

Mr. Estes consented to do so, and both bills were made the order of the day for Wednesday next.

The bill introduced by Mr. Pou, regulating the sale of State bonds by Railroad Companies, was next reached, when,

Mr Estes moved to print. Carried.

House bill No. 110, introduced by Wm. Hutchings, (colored,) to change the time of paying State and county taxes, was next taken up, when,

On motion of Mr. Yost, it was indefinitely postponed.

House bill No. 102, introduced by Mr. Stilley, to repeal the act making an appropriation to furnish the Executive Mansion, was next reached.

Mr. Stilley said that he introduced the bill at the request of the Governor, who did not desire to occupy the Mansion, preferring his private residence. Some of the $10,000 appropriation of last session had been expended to repair the furniture; therefore he had introduced a clause preventing such expenditures from being invalidated. The bill then passed its third reading.

The bill to change the time of holding Courts in the 9th Judicial District was taken up, and, on motion of Mr. Justice, of Rutherford, referred to the Special Committee raised yesterday.

The bill, introduced by Mr. Candler, authorizing W. D. Justice to collect the arrears of taxes in Buncombe county, next came up, and, after being somewhat amended, passed its second reading.

On motion of Mr. Laffin, the joint resolution, authorizing the Public Treasurer to pay to H. J. Menninger, Secretary of State, $600 for hire of *special* clerks, was taken up.

J. S. Leary, (colored,) wanted to know for how long a time these special clerks were hired.

Mr. Laffin replied from July last up to the present time.

Mr. Justice, of Rutherford, thought there were fees attached to this kind of work that would pay for the work.

Mr. Estes said that there had been two bills before the Committe, (Finance)—one asking for $330 for two clerks, and another for $320 for one, for services during the last six months. The Committee had consolidated the two bills into the one just read.

Mr. Stilley said there had been a protest laid before the Committee on Salaries and Fees against the payment of this demand. The reasons of this protest were of a private nature, and he did not feel disposed to give them to the House.

Mr. Estes said he did not see why a protest had been laid before a Committee, to whom the matter had not been referred. This matter had been committed to the Finance Committee; whether properly or not, *that* was a matter for the House to decide. But so long as it had been so referred, he, as Chairman of that Committee, disliked to hear of a measure they had reported favorably upon being protested against by another Committee, and the benefit of such protest not given to the House.

Mr. Welch said this was a very unusual way of doing business. The law, he thought, had already provided pay for the clerical work in the Secretary of State's office. But, let the matter be as it might, he did not feel disposed to vote for this appropriation, until he understood it better, and, with due deference to the Finance Committee, he would like to see it referred to the Committee on Claims.

Mr. Sinclair opposed any further reference.

Mr. Smith, of Martin, did not care particularly what Committee reported on it; all he wished to know was whether it was right or wrong. If right, it would have his support; if wrong, he would vote against it, if the roof of the Capitol fell.

Mr. Yost thought the matter had better be discussed on its third reading.

Mr. Downing opposed any other reference.

Mr. Smith, of Martin, wanted to know if the matter had been before a called meeting of the Finance Committee.

Mr. Estes: Yes, Sir; not only before a called meeting, but before a majority of the Committee.

Mr. Smith: A member of the Committee has just told me that the matter had not, to his knowledge, been ever discussed before the Committee.

Mr. Estes: Some five or six members have never seen fit to attend the meetings of the Committee.

Mr. Welch said he had observed a disposition, on the part of some in this House, every time a Conservative member opened his mouth, to cry out about "party and party spirit" being manifested—charging, as it were, upon them that they were the one eternal source of dissension. Now, he did not intend to submit to any such thing. He intended, as a Representative of the people, to raise his voice, whenever he thought their interests demanded it; and, most especially, would he protest against and denounce, in unmeasured terms, this reckless and sinful waste of the money of a people ruined already by the desolation of a long war, and who were now being fast driven into pauperism by having their affairs thrown into the hands of men, whose incapacity is only excelled by their wicked acts. He opposed this appropriation, and would never cast his vote for it, until he should be clearly convinced, first, that the Secretary of State had a right to employ special clerks; and, secondly, that the amount charged was fair and reasonable.

Mr. Estes said he did not care particularly about the resolution, but if any reflections were made upon a committee, of which he had the honor to be chairman, he would resent them, let them come from what quarter they would.

Mr. Mendenhall said he understood that the gentleman, (Mr. Walton,) who claimed 108 days' pay, was *an employee of the Freedman's Bureau*. He thought *one* salary ought to suffice him.

Mr. Estes: Not if he has the energy and enterprise to command two. He (Mr. Walton) has been in the habit of coming to the Secretary of State's office in the afternoon, after office hours in Bureau, and working very late! He works harder than Mr. Mendenhall and gets less pay for it.

Mr. Durham said that, last session, the House had refused to pass a bill to allow the Secretary of State an additional clerk, and he was not going to vote for the precedent of allowing officers to bring in large bills for the State to pay, incurred without any authority whatever.

Mr. Estes said that, at the close of last session, the House was willing to allow the Secretary another Clerk, but there was no quorum in the Senate. It was well understood that the Secretary would bring in a bill to meet the expenses incurred, on account of employing the additional clerical force, which the work of his office demanded.

Mr. Durham replied that, for 70 years, the work of this office had been carried on without any Clerk at all. It was only at the close of the war that a Clerk, after a hard contest, was allowed. He did not see or know how the work of the office had been so much increased that three additional Clerks had to be employed, for the last six months. Now he wanted gentlemen, who favored this resolution, to toe the mark. Let them frame and pass a bill giving the Secretary of State additional clerical force, so that the people generally would know how many were being fed with fat places. Do not conceal the matter by passing appropriations.

Mr. Ingram favored the motion to refer.

After some debate, Mr. Stilley said there had been a statement made to the Committee on Salaries and Fees, that another person claimed to be entitled to the pay, instead of Mr. Walton, and his claim would be rendered to this body. This information, which he now gave to the House, led him to make his first statement in regard to the matter.

Mr. Estes said if the gentleman had spoken out at first, it would have stopped this discussion. Though he believed the charge to be unfounded, yet he would move to recommit to the Finance Committee.

J. S. Leary, colored, rose to a point of order, stating that the question properly recurred on his motion, made in the early part of the debate, to refer to the Committee on Salaries and Fees.

The Chair sustained the point.

Pending the further discussion of the matter, the House, on motion of J. H. Harris, of Wake, colored, adjourned.

Assignee's Sale of Valuable Real Estate.

THE LAND BELONGING to Dr. M. T. Ponton will be offered at public sale, by his assignee in bankruptcy, on THURSDAY, the 14th of January next at 11 o'clock a. M.

The sale will take place at the residence of Dr. Ponton, the land will be put up, without reserve, to the highest bidder, for CASH, and no postponement will be made.

The land contains about sixteen hundred acres, is situated near the town of Halifax, N. C., on Great and Little Quankey Creeks and partly on the line of the Wilmington and Weldon Railroad.

The soil is naturally free and fertile, but has been much reduced by bad tillage. There are large quantities of marl on some of the land, and all of it can be easily improved and made good Corn and Cotton land. Much of it is well adapted to truck farming, and nearly the whole of it is equal to any in America for the cultivation of the grape. To any person who desires to invest capital in "Grape Culture," no better opportunity can be offered.

The land will be sold in several separate tracts, on one of which there is the best mill site in Halifax county, affording an inexhaustible supply of water power, with building stone sufficient for the erection of dams and mills.

Dr. Ponton will take pleasure in guiding persons over the land, who may wish to inspect it with a view to purchase.

A Most Wonderful and Successful Invention!

NEW METHOD OF WASHING CLOTHES WITHOUT LABOR.

THE AUTOMATIC

CLOTHES WASHER AND BOILER.

Awarded the highest Testimonial wherever Exhibited.

REV. M. W. STAPLES, *Inventor and Patentee.*

THIS BOILER is self-acting, and dispenses entirely with labor and the wear of clothes. The hot suds and steam by the action of fire, are driven up through tubes, poured upon the clothes, and forced through the fabric with astonishing rapidity, cleansing it perfectly without any rubbing. It has been thoroughly tested, and pronounced unequalled as a Clothes Washer, by those who have used it.

All fabrics, from the finest laces to the bed-blanket can be washed perfectly and with ease and without the aid of the rubbing-board. For Flannels it is invaluable, as the rubbing, rolling and pressing process must necessarily fall them more or less.

It is truly a labor and clothes saving invention. Washing will no longer be a hardship, and washing day no longer a terror and a dread to housewives.

The saving in the wear of clothes will soon pay for the outlay.

It is estimated that 200 to 300 gallons of boiled suds pass through the clothes in thirty minutes; this being the longest time required for cleansing a boiler full of clothes.

Hundreds of these Boilers are being sold each week, giving perfect satisfaction.

Every Boiler sold guaranteed to do all we claim, or money refunded.

Can be seen in full operation at Lougee & Brother's.

We are selling COUNTY RIGHTS rapidly.

MISCELLANEOUS.

To the People of the Southern States.

NEW YORK, Nov. 3, 1868.

When the pure medicinal restorative, now so widely known as Wolfe's Schiedam Schnapps, was introduced into the world under the endorsement of four thousand leading members of the medical profession some 20 years ago, its proprietor was well aware that it could not wholly escape the penalty attached to all new and useful preparations. He, therefore, endeavored to invest it with stronger possible safeguard against counterfeiters, and to render all attempts to pirate it difficult and dangerous. It was submitted to distinguished chemists for analysis, and pronounced by them the purest spirit ever manufactured. Its purity and properties having been thus ascertained, samples of the article were forwarded to ten thousand physicians including all the leading practitioners in the United States, for purposes of experiment. A circular, requesting a trial of the preparation and a report of the result, accompanied each specimen. Four thousand of the most eminent medical men in the United States promptly responded. Their opinions of the article were unanimously favorable. Such a preparation, they said, had long been wanted by the profession, as no reliance could be placed in the ordinary liquors of commerce, all of which were more or less adulterated, and therefore unfit for medical purposes. The peculiar excellence and strength of the oil of juniper, which formed one of the principal ingredients of the schnapps, together with an unalloyed character of the alcoholic element, give it, in the estimation of the faculty, a marked superiority over every other diuretic stimulant as a diuretic, tonic and restorative.

These satisfactory credentials from professional men of the highest rank were published in a condensed form, and enclosed with every bottle of the Schnapps, as one of the guarantees of its genuineness. Other precautions against fraud were also adopted; a patent was obtained for the article, the label was copyrighted, a *fac simile* of the proprietor's autograph signature was attached to each label and cork, his name and that of the preparation were embossed on the bottles, and the corks were sealed with the private seal. The article has ever been sold in this country under the name of schnapps prior to the introduction of Wolfe's Schiedam schnapps, in 1851; and the label was deposited, as his trade mark, in the United States District Court for the Southern District of New York during that year.

It might be supposed by persons unacquainted with the daring character of the persons who prey upon the reputation of honorable merchants by vending deleterious trash under their name, that the protections so carefully thrown around these schnapps would have preceded the introduction and sale of counterfeits. They seem, however only to have stimulated the capacity of impositors. The trade mark of the proprietor has been stolen; the bird-crescent which the Schiedam Aromatic schnapps claims never. The medical profession has been deceived by meretacious humbugs; his labels and bottles have been imitated, his advertisements paraphrased, his circulars copied, and worse than all, dishonorable retailers, after disposing of the genuine contents of his bottles, have filled them up with common gin, the most deleterious of all liquors, and thus made his name and brand a cover for poison.

The public the medical profession and the sick for whom the Schiedam Aromatic Schnapps is prescribed as a remedy, are equally interested in the proprietor in the detection and suppression of these nefarious practices. The genuine article, manufactured at the establishment of the undersigned in Schiedam, Holland, is distilled from a variety of the finest quality, and flavored with an essential extract of the berry of the Italian juniper, of unequaled purity. By a process unknown in the preparation of any other liquor, it is freed from every acrimonious and corrosive element.

Complaints have been received from the leading physicians and families in the Southern States of the sale of cheap imitations of the Schiedam Aromatic schnapps, in those markets; and travellers, who are in the habit of using it as an antidote to the baneful influence of unwholesome river water, betray that cheap gin, put up in Schiedam bottles, is frequently palmed off upon the unwary. The agents of the undersigned have been requested to institute inquiries on the subject, and to forward to him the names of such parties as they may ascertain to be engaged in the atrocious system of deception. In consideration, the undersigned would say that he has produced, from under the hands of the most distinguished men of science in America, proofs unanswerable of the purity and medicinal excellence of the Schiedam Aromatic schnapps; that he has expended many thousand dollars in surrounding it with guarantees and safeguards, which he deemed should prevent the public and himself against fraudulent imitations; that he has chosen it to be the only liquor in the world that can be uniformly depended upon as unadulterated; that he has challenged investigation, analysis, comparison and experiment in all its forms; and from every ordeal the preparation which bears his name, seal and trademark, has come off triumphant. He therefore feels it a duty he owes to his fellow-citizens generally, to the medical profession and the sick, to denounce and to expose the charlatans who counterfeit these evidences of identity and he calls upon the press and the public to aid him in his efforts so remedy so great an evil.

The following letters and certificates from the leading physicians and chemists of this city will prove to the reader that all goods sold by the undersigned are as they are represented to be.

ADOLPHO WOLFE.

I feel bound to say that I regard your Schnapps as being in every respect pre-eminently pure, and deserving of medical patronage. At all events, it is the purest possible article of Holland gin, heretofore unobtainable and, as such, may be safely prescribed by physicians.

FRIENDS OF TEMPERANCE.—The State Council of this Order assembled in this city on yesterday. A number of subordinate Councils are represented, and the individual attendance is large and respectable.

The following officers have been elected for the ensuing year, viz:

President.—Major D. S. Hill, of Louisburg.

Associate.—W. M. Poisson, of Wilmington.

Corresponding Secretary.—R. H. Whitaker, of Raleigh.

Chaplain.—Rev. A. R. Raven, Smithfield.

Treasurer.—Rev. J. W. Wellons, Franklinton.

Conductor.—J. M Shelly, Thomasville.

Sentinel.—L. D. Heartt, Raleigh.

Last night there was a very pleasant meeting of the Order, and the public, generally, in the Chapel of the Institution for the Deaf, Dumb and the Blind. Quite a large number of ladies and gentlemen were in attendance. The immediate occasion of the meeting was the presentation, by a number of ladies of the city, of a rich banner to Oak City Council, No. 16, of Raleigh. The presentation address,—beautiful in conception and delivery,—was made by Miss Maggie Fentress. It was received, on the part of the Order, by Mr. Theo. N. Ramsay, in a chaste and eloquent speech, which did him great credit.

After the interesting ceremony, excellent addresses were made,—Messrs. R. B. Vance and W. B. Wellons being the speakers.

A LECTURE will be delivered, this (Friday) night, in Tucker Hall, at 7½ o'clock, by the Rev. James A. Duncan, D. D., President of Randolph Macon College.

The proceeds will be given to the Christian Association, for the poor of Raleigh. Admission 50 cents.

ABOUT GAS.—Owing to an unavoidable accident to the retorts at the Gas House, the gas, for a few nights past, has been but indifferent, and, on Wednesday night, about 10 o'clock, failed entirely,—leaving the city in darkness. The necessary repairs have been made, however, and all will be right hereafter. This is the only accident that has interfered with the operations of the Company for many years. They have been conducted with singular success.

HON. WM. H. BATTLE.—We are pleased to see this distinguished gentleman in Raleigh and to learn that he contemplates making it his future place of residence. No man stands higher in the confidence and regards of the people than this upright Jurist and gentleman, and his citizenship among us will be, indeed, an acquisition.

WE refer the public to the interesting and important proceedings, in either House, on yesterday. A word or two about them, hereafter.

WE WERE pleased to receive a visit, on yesterday, from our co temporary, Mr. Bennett, of the Warrenton *Courier*. Mr. Bennett contemplates a speedy retirement from the craft, and we wish him all good fortune in whatever he undertakes.

WE THANK our friend, Gen. Bradley T. Johnson, of Richmond, for a pamphlet copy of his argument in the Griffin *Habeas Corpus* case, on "the validity of acts of officers *de facto* and the effect of the constitutional amendment." The argument is learned and conclusive and has added greatly to the fine professional reputation the General.—We are greatly gratified to hear of his distinguished success at the Richmond Bar.

THE MESSAGE, &c.—We present, in another column, an abstract of the principal points of the President's message. Last night's mail brought it in full, but it's great length may possibly preclude its publication entire in our columns, engrossed as they are by Legislative proceedings.

Like all of President Johnson's State papers, the message is able, dignified, perspicuous and patriotic. The paltry and discourteous action of the two Houses of Congress, with reference to it, as announced by telegraph, on yesterday, is only discreditable and disgraceful to them, and does not touch Mr. Johnson.

On our first page, will be found synopses of the leading Departmental Reports.

EATING ITS WORDS.—No better evidence could be furnished of the blind, bungling and unreliable management of the Governor's paper, than the fact that, almost in every issue, it is made to swallow some of its own words of the day before. One day it ridicules Mr. Sweet, and the next apologizes. Another day, it covertly assails Mr. Caverly, a leader among the Republicans, and the next swears that it didn't mean *him!* A little back-bone or a little judgment would help the *Standard* muchly.

They claim to have in Weldon the champion workman on plows: He "wooded up," last Saturday, *twenty-five* plows—size No. 50. Who can beat it, in so short a day?

At a duel the parties discharged their pistols without effect, whereupon one of the seconds entered, and proposed that the combatants should shake hands. To this the other second objected as unnecessary; "for," said he, "their hands have been shaking this half hour."

OXFORD COURT.

We made a hasty, but pleasant, visit to Oxford Court, on Tuesday last. It is not intended, and we are sure it will not be taken, as offensive, when we say that neither the Bench nor the Bar, on our last visit, were what they were on our first visit, twenty years ago.

On the Bench, then, was Judge Bailey; at the Bar were Judge Badger, Gov. Iredell, Judge Saunders, H. W. Miller, Judge Kerr, Gov. Graham, Hugh Waddell, Abraham W. Venable, Robert B. Gilliam, John H. Bryan, Perrin Busbee, and others. The Judge was worthy to sit by Marshall, Story or Kent; the Bar to shiver lances with Curran, Grattan, Pinckney, Webster or Clay.—We are reminded, by the way, in this connection, that the lofty-spoken Webster introduced, by letter, the golden spoken Badger to the honest-spoken Story, by telling him: "This letter will introduce my friend, George E. Badger, *your* equal and my superior."

Ten days ago, when night was drawing its veil over the face of the King of day, as he went down behind the dark waves of the Albemarle, we stood at the grave of the late Gov. Iredell; and when we had finished reading what the sculptor had carved upon the memorial stone, we sighed to think that *such* men could not live again.

OUT OF COURT.

On the Court green we heard Judge Watts' charge favorably spoken of by the people. Members of the Bar, also, spoke highly of it. We did not hear it ourselves.

Our friend, Dr. Young, called up the Crewses, Gooches, Stovalls, Reamses, Meadows and Reavises, with many others, who filled our pockets with money for the *Sentinel*. The Dr. gave us ten subscribers where we should not have received more than one, and we wish our friends to serve us as *he* did, and without our being present.

We left for home on Wednesday—John Spencer driving us behind good horses. Among the passengers, we numbered one from Chapman's and one from Ransom's Brigades, and one from Mosby's command. The passenger from Ransom's brigade, having his head severely thumped by rough driving, was told it was because we had a John Ragland driver. Upon the driver being asked which he preferred to be called—a John Ragland or a Lassiter driver—he said, "Lassiter, for *he* patronized the line, while John Ragland always patronized the gravel train between Henderson and Oxford."

We shall leave to-morrow for Elizabeth City. Our purpose is to extend our acquaintance, as well as the circulation of the *Sentinel*, and to see a portion of the State we have never seen. We promise ourselves a shoot at ducks in Coinjock bay,—but we shall avoid the *decoys*, this time. We trust that, being *fanned* by the Howard Amendment, and failing to vote for the last appropriation for the Big Ditch, will not be cause, with our old friend Simmons, for expelling us from the bay and banning us from shooting the ducks. We go upon the first count and not the last, as we voted, with Jos. B. Cherry, for the first appropriation to the Big Ditch aforesaid.

STATE ITEMS.

THE Newbern *Republican* takes up the cudgels in behalf of Senator Sweet and vindicates him handsomely from the insinuations and ridicule of the *Standard*. The Governor's paper is the only Journal, of either party, in the State, that has sought to throw cold water on the Bribery investigation. The *Republican* says:

"We have faith in Senator Sweet, as a just and patriotic representative, and a man who would make no charges, that he was unable to sustain by positive proof, and the charges of apostacy against Senator Sweet we hurl back as false. Every honest man, without any regard to politics, will say to Senator Sweet, *go on*, and just as sure as the sun and planets are drawn together by the attraction of affinity, so will all those who have "itching palms" be drawn together and shown to the public in the grand denouement."

The Wilmington *Star* puts it down in the following emphatic manner, and the *Star* is but re-echoing the general sentiment:

"There are men now in Raleigh who have come there from the North for the single purpose of plundering the Treasury. They are growing fat on the miseries and sufferings of our people; and they will never release their grasp on the public purse, until the last dollar is wrested from us, and our good old State, that once stood without a peer in her credit, is placed so low in the financial world that her bonds will not command twenty-five per cent of their face value."

The Fayetteville *Eagle* is evidently "mad as" the Governor's paper. Here is how he talks about it:

"The *Standard* has become so contemptible recently that it is beneath the notice of most decent people. We have never exchanged with it, though at first we wished to do so. When that base and lascivious article on "Work" appeared as editorial, we felt that civilization should forever more scorn the filthy sheet. Its wilful falsehoods, its base slanders, its corrupt purposes, all thicken and increase under its new management. It is a fit organ of thieves and prostitutes; a true exponent of mongrel fanaticism, animal equality, perjury, barbarism, despotism and every other vice and ism that infest the scabs and scum of a political world."

A Tournament is announced to take place at Scotland Neck on the 22nd. Rather cold weather for "poking at a hole with a stick."

A black boy named Matthew Green was arrested in Weldon on Monday, charged with stealing goods from the store of Mr. Parsons. He was committed for trial, and, awaiting removal to Halifax, was placed in a box car, from which he made good his escape by ripping up the floor.

A difficulty occurred at Boykin's, on the Seaboard road, Monday morning, between a young man by the name of Odom and an engineer on the road named Diggs, young Odom accidentally shooting himself through the upper part of the leg, while drawing a pistol.

ABSTRACT OF THE PRESIDENT'S MESSAGE.

The President begins by calling the attention of Congress to the continued disorganized condition of certain States of the Union under the various reconstruction laws. A timely revocation of injurious and oppressive measures is the greatest good that can be conferred upon the nation.—The reconstruction laws have failed, after three years' trial, have proved pernicious in their results, and should no longer remain upon the statute book. States to which the Constitution guarantees a republican form of government have been reduced to military dependencies in each of which the people have been made subject to the arbitrary will of a Commanding General.—Although the Constitution requires that each State shall be represented in Congress, Virginia, Mississippi, and Texas are yet excluded from the two Houses, and, contrary to the express provisions of that instrument, were denied participation in the recent Presidential election.

The attempt to place the white population under the the dominion of persons of color in the South has impaired if not destroyed the kindly relation that has previously existed between them, and mutual distrust has engendered a feeling of animosity which, leading in some instances to collision and bloodshed, has prevented that co-operation between the two races so essential to the success of industrial enterprises in the Southern States. The entire Union has been agitated by grave apprehensions of troubles which might involve the peace of the nation. The Federal Constitution is now adequate to the settlement of the questions growing out of the late civil war.

The President reviews the condition of the country since the end of the rebellion, declaring that the acts passed were not warranted by the Constitution. He says that the best interests of the country demand the repeal of the tenure-of-office act, and the appropriation act of March 2, 1867, interfering as it does with the President's constitutional functions as commmander in chief, and the act denying to States the right to protect themselves, by means of their own militia, should also be repealed.

The financial affairs of the Union need immediate attention, as the public expenses are unprecedented. [Here the President sets forth substantially his letter to Gen. Ewing.] Congress should make early provision to pay the indebtedness of the country; the fruits of labor should be enjoyed by citizens rather than used to build up moneyed monopolies in our own and other lands; the debt should not become permanent; the interest on the debt should be reduced, the owners of Government securities receiving seventeen per cent. on each dollar. This favors the few at the expense of the many. The national credit should be sacredly observed. The six per cent. interest now paid by the Government should be applied to the reduction of the principal in semi annual instalments, which, in sixteen years, would liquidate the entire national debt. The large amount of capital now invested in Government securities should be released. The resumption of specie payments is recommended.

The condition of our foreign affairs is reviewed. The controversy with the Paraguayan Government is detailed. Negotiations are pending for the construction of a ship canal across the Isthmus of Darien, and a comprehensive national policy would seem to sanction the acquisition and incorporation into our Federal Union of the several adjacent continental and insular communities as speedily as it can be done peacefully, lawfully, and without any violation of national justice, faith, or honor.

Foreign possession or control of these communities has hitherto hindred the growth and impaired the influence of the United States. When firmly established as an independent republic, or incorporated into the United States, they would be a new source of strength and power.

No reference is made in the message to our affairs with England relative to the Alabama claims, the naturalization treaty, etc.

The President renews his recommendation that the judgment of the people should be taken on the propriety of amending the Constitution: First, for the election of a President and Vice President by the direct vote of the people instead of by the agency of electors; secondly, that distinct designation should be made of the person who shall discharge the duties of President in the event of vacancy in the office both of President and Vice President; thirdly, that Senators should be elected by a direct vote of the people of the several States.

In concluding, the President says: "Let us earnestly hope that before the expiration of our respective terms of service, now rapidly drawing to a close, an all-wise Providence will so guide our counsels as to strengthen and preserve the Federal Union, inspire reverence for the Constitution, restore prosperity and happiness to our whole people, and promote on earth peace and good will toward men."

THE MILITIA TAKES POSSESSION OF THE TOWN OF AUGUSTA.—*Memphis, Dec. 7.*—A dispatch from Augusta this afternoon says that last evening a regiment of State militia under Gen. Apham entered the town and took possession of all the telegraph offices, directing the operators not to send messages without their being visited by the officers. They then placed guards on the street and proclaimed martial law. No reason is assigned for the occupation of the town.

GEN. COLE ACQUITTED.—*Albany, Dec. 7.* Gen. G. W. Cole has been acquitted of the charge of murder in killing L. H. Hiscock, for the alleged seduction of his (Cole's) wife. The jury came into court about eleven o'clock this morning. The foreman stated, that they found the prisoner to be sane at the moment before and the moment after the killing, but they were in doubt as to his sanity on the instant of the homicide. The Judge said they must give the prisoner the benefit of the doubt, and thus instructed they rendered a verdict of acquittal.

GRANT AND STANTON.—The Republican Congressmen who have arrived here manifest a decided opinion in favor of Mr. Stanton's restoration to the War Department, partly on account of his administrative skill in the work of Southern restoration, and also as a compensation for his services to the party in retaining his position in opposition to President Johnson. His campaign speeches are also urged in his favor, and it has transpired that Gen. Grant has been approached on the subject by parties of the highest influence. It is said that the General gave no indication of his intentions. It is hinted, however, that the relations of General Grant and Secretary Stanton, when the former was in active service, were not of a character calculated to strengthen the pretensions of Stanton's friends.—*Dispatch to the Philadelphia North American.*

FRIDAY, DECEMBER 11, 1868.

DRIED FRUIT IN NORTH CAROLINA.—The good people of Stokes, Forsythe, Guilford and adjoining counties, have discovered that there are other crops worth attending to besides the great staple of tobacco, or even the more necessary articles of corn and wheat.

The following statement, furnished by a reliable gentleman, well acquainted with the people and their industrious, enterprising and go ahead qualities, will show your readers what may be done by those who are determined to avail themselves of the advantages which a kind Providence has placed within their reach:

A merchant residing in the small village of Mount Airy (Stokes County, N. C.,) has received into his store in less than two weeks thirty-five thousand pounds of dried apples. A firm in the same place built a large and commodious brick storehouse, and paid for it from the profits in the sale of the dried fruit bought and sold by them in one season.

One firm in Salem, N. C., (Vogler's) has sent off this fall eight hundred barrels of dried Blackberries, and will probably send two hundred barrels more—the whole worth forty thousand dollars. The dried fruit received and purchased in that small village this season will bring one hundred thousand dollars.

Last year, High Point, a village which has recently sprung up in Guilford county, and on the Central road, shipped largely over one million pounds of dried fruit, and will send off a much larger quantity this season.

The village of Kernersville (in Forsythe County,) with scarcely one hundred inhabitants, will send North this Fall from sixty to one hundred thousand dollars' worth of dried fruit. One house in this village sent off last Friday thirteen wagon loads (36,000 pounds) of peach stones, which cost fifty cents per bushel; and one lady, in the same place, has collected nearly one bushel of apple seeds, for which she is to receive twenty-five dollars. The two last mentioned articles are bought on commission for nursery men in the North.—*Carolina Farmer.*

[From the Paris Kentuckian, Dec. 24.]

THE STORY OF A BOTTLE.—On Thursday last Marshal Throckmorton found a bottle floating in the edge of Stoner, above the dam, and, observing that it contained something white, he took it out of the water and examined it. The bottle was tightly corked, and contained the following note, written in pencil on a piece of white paper. The name attached to the note is a strange one in this community. The body has not as yet been found; when it is, the authorities will give it a christian burial. One can hardly imagine a more melancholy case than a strong man driven to suicide by friendless poverty and starvation:

"To the finder of this bottle: It contained the last dram I shall ever take in this world, except the terrible draught of cold water which shall send me to my final home. I have no friends in this country; but if any one feels an interest in my fate, my body will be found in its watery grave at the mouth of Kennedy's creek. May the Lord have mercy on me, and forgive this last crime—for by it I harm only myself, and deem it a fair and just punishment for my sins. JOHN THOMAS O'NEIL.

NEW ARRANGEMENT.

The RALEIGH SENTINEL having passed under the Editorial management of the undersigned, it will, from the present date, be conducted by him.

It will be the zealous and fearless advocate of the CONSTITUTION of the United States, seeking to bring the people back to their ancient reverence for that immortal instrument, and to restore the policy of the country to that honored standard, as the only guarantee of National prosperity.

It will do justice to the men and measures of the present day, whenever they may merit it, but it will unsparingly lash and denounce all who set themselves up in opposition to the Federal Constitution, and hold up to the public indignation corruption and imbecility in high places.

It will ardently seek the promotion of the best interests of North Carolina,—moral, educational, material and political.

THE LATEST NEWS

From every quarter, both by mail and telegraph, will be carefully collated and presented.

Full and correct market and financial reports will be given.

And, in one word, no effort will be spared to make the SENTINEL, in all respects, a reliable
